

# THE GLEN RESIDENTIAL CARE CENTRE

## Residential & Specialist Housing

The central administration is the hub of the complex incorporating reception, offices, main kitchen and laundry along with a function hall and hairdressing salon as well as a doctors' consulting room. The thoroughfare functions as a "street" with a cafe providing a place to meet or watch the activities of the village.

All buildings are oriented to the north, maximising direct sunlight into the majority of rooms. A central lounge, TV area and dining room to each 'house' give focus to the communal activities. The objective of The Glen is to enhance the opportunity for social interaction while respecting each individual's need for privacy and security.
